

As a Christian living in a predominately Mormon area, having "K-love" radio easily accessible on my FM dial is of great value to me. 98% of my radio time is spent listening to non-commercial christian radio stations. If these stations were replaced, I wouldn't listen. K-love and other stations like them serve an important service in my community and in my home. They provide a safe place to hear up-lifting music and words. It would be a great loss for me personally, and for my community if LPFM stations are given priority over existing FM stations. Thank you for taking the time to consider my opinion.

Sincerely, Kim A Lee
